PRESS RELEASE

NBW Capital added as a sub-advisor to the Inflation Hedges Strategy Fund

BOSTON, November 11, 2014 – NBW Capital, formerly Taylor Investment Counselors, is pleased to announce it has been selected by North Peak Asset Management to be a new sub-advisor to their Inflation Hedges Strategy Fund (the “Fund”). The Fund is a multi-strategy, multi-manager mutual fund with the objective of protecting investors from inflation by providing current income and real (after inflation) total returns. NBW Capital will manage the Fund’s allocation to master limited partnerships (“MLPs”).

By utilizing specialist sub-advisers, the Fund has the ability to invest in inflation-sensitive asset classes. The Fund offers a diversifying return profile, transparency and access to high-quality institutional investment managers. Because MLPs own real assets that can increase in value over time, MLPs are a potential inflation hedge. In addition, many pipeline MLPs have contracts that adjust for inflation annually, and MLPs have a history of growing their distributions which are also adjusted by inflation.
